

Flukt

The Norwegian group "FLUKT" (soaring) lends Music wings. The players literally radiate true musicianship, an energetic intensity and a spirit of sorts, which gives the listener a hard time sitting still. Their Music resembles a good game of chess, where elements of surprise and unconventional imaginative abilities beat the conventional and sturdy. The inspirational sources are many; Scandinavian as well as Gaelic folk Music, religious tunes and specially written compositions form a vital and living totality with a strong and personal identity. Enjoy this soaring musical experience and fly over familiar and unknown lands!
